WELCOME TO INDONESIA

BLESSED WITH ABUNDANT NATURAL RESOURCES.
HOME TO SUPERB CRAFTSMEN.

Indonesia is blessed with many natural resources, one of the most beautiful is teak wood, world famous for its beauty and hardiness. Stunning when crafted as indoor furniture and still extremely practical in outdoor settings. Teak's unique qualities has been used for hundreds of years for building structures from simple pool cabanas, cabins, houses and luxurious resorts. The pleasures of living with teak wood cannot be overstated. Another treasured and highly valued 'resource' is the skill of Indonesia's craftsmen, often inherited through generations after generation.

ABOUT US

Bali Agung Furniture is an Indonesian company and it gives us great pleasure and an honor to source and bring these two resources together and make these unique crafts available globally.

Mount Agung is the highest volcanic peak in our home base of Bali and is the daily inspiration for us to reach the highest peak in quality Indonesian crafts.

We totally understand you may have your own individual ideas of aesthetics and functionality, and we can help you realize these. We have sourced a dependable and skilled set of suppliers and craftsmen and can work with you from an original idea, final design and creation. How much more satisfaction does it add to see your own designs created.

Teak wood is actually a unique hardwood material, the only most expert and creative craftsman can build adorable furniture from this unique wood.
